NOTES :

- * In order to guarantee the longest possible working life of the battery :
 - do not charge for more than 24 hours
 - do not keep the charging unit permanently plugged in
 - discharge the battery completely once a year by letting the motor run until it stops
- * If the battery is empty and the consumer wants to trim his beard, the trimmer has to be charged for at least 3 hours to have enough power for one trim (10 min.)
- * The appliance should be charged again, when not used for a long period
